PC 8

Redlich, Norman

5-28-64

Dear Mr. Justice:

Can you possibly have an alibi for the hiring of Dr. Norman Redlich with his Communist background to be a Consultant to the Commission investigating President Kennedy's assassination? What perfidy! I read in the Daily Worker where you were recommended by the Communists to be a member of the Commission to investigate this assassination. Does it all tie in a pakcage deal? Truly, what is going on in the United States today makes Benedict Arnold a hero as far as treason is concerned. I don't know how the Kenendys can sit back and stand for such treachery. It is a sad and deplorable day for the United States of America and the Justice Department.
